HVAA Families,

In an effort to keep our community informed, I share with you the latest update about HVAA's In-House Basketball program. HVAA has NOT opened In-House Basketball registration yet, and we will likely open registration in mid-November. We will then communicate to you everything you want to know about the In-House basketball program: from the number of leagues, number of teams per league, number of players per team, length of games, hard cap on number of registrations, and number of practices our program will offer. While we do have Travel Basketball tryouts planned in October, we have no information available regarding the In-House Basketball season at this time.

HVAA will continue to provide all communication updates through email and our website, in order to keep you informed. I am respectfully requesting that everyone be patient with us and not email questions that we simply don't have answers for yet at this time. HVAA is committed to continue offering youth sports and activities safely during these unprecedented times. I appreciate your understanding and support.

Thank you,

Bob Santora
Director of Basketball HVAA
